

Juniper Poliweave

Forsix Design

The Juniper Poliweave table collection combines strength with contemporary design. Made of techno-polymer and available in a range of colors, it offers durability and versatility for both indoor and outdoor environments. The base, available with three or four legs and adjustable feet, supports round or square tops enhanced by a refined herringbone pattern, adding elegance and a distinctive character to any setting.

La collezione di tavoli Juniper Poliweave coniuga solidità e design contemporaneo. Realizzati in tecnopolimero e disponibili in diverse cromie, offrono resistenza e versatilità per ambienti indoor e outdoor. Il basamento, a tre o quattro razze con piedini regolabili, sostiene piani tondi o quadrati impreziositi da un raffinato motivo a spina di pesce, che conferisce eleganza e un carattere distintivo a ogni contesto.
